

Customized APP

Now multiCLASS Kids Table has its own App for children between 3 and 7 years old with customizable and educational games

DESCRIPTION OF THE GAMES

TWO PUZZLES. The child must complete a guided drawing putting the pieces in their correct places. There will be six and twelve piece-puzzles, with the possibility of the personalization of the images (consult).

TWO MEMORY GAMES. Classic game of memorizing pairs. One easy with six cards and another with 12. Both allow repetition as the pairs are always random.

FREE COLORING AND DRAWING. Several painting tools are offered with their coloured palettes, different textures, stroke thicknesses. Eraser. White canvas, with drawings and textures.

SHAPED BUBBLES AND LETTERED BUBBLES. The bubbles bounce on the screen and the child must explode those containing figures equal to those of the example. To practice geometric shapes for the little ones.

TWO DIFFERENCES. The player must touch the place in the drawing where the difference is. A check/tick will appear when the player gets it right. One easier and one more difficult.

SPACESHIP. Classic spacecraft game that must make its way through an asteroid shower.

AIR HOCKEY. Fun multi-user game to compete in a healthy way through the famous air hockey.
